

ADVANCED METHOD OF SEARCHING, DRAFTING AND
EDITING OF ELECTRONIC FILES

ABSTRACT

5

10 The invention relates to a method of searching, drafting and editing of electronic files comprising the use of one or more peripheral computers, each computer handling an assembly of one or more updatable data bases comprising electronic documents, said electronic documents comprising information suitable to identify the same documents, each peripheral computer handling searches for, drafting of, communication about, and editing of, documents, the method being characterised in that said data base assembly provides one or more catalogues relevant to the documents, the search of documents or of part of documents being carried out employing at least one search criterium comprising the use of one or more catalogues.

15

The invention further relates to apparatuses and instruments necessary for carrying out the method according to the invention.
